Experience

After graduation from the department of medical laboratories technology/ Higher institute of technology/ Brack- Libya in 1983 I worked as a laboratory technician in the laboratory department at Alkhadra hospital for eighteen months from November 1984 until April 1986.

From may 1986 until October 1991 I worked as a demonstrator at the department of medical laboratories technology/ Higher institute of technology. During that time I assisted in teaching practical classes to the students.

From November 1991 until July 1996 I joined Medical Microbiology Department/ Medical school/ Edinburgh university/ Scotland-UK as a postgraduate student.

I was awarded PhD. degree in July 1996. The research work of my thesis was a study on the interaction between Gram negative bacterial lipopolysaccharide and host leucocytes.

I worked as a member of the teaching staff (lecturer) in medical microbiology at Sebha University/faculty of Engineering and Technological Sciences/ Medical Laboratories Technology Department from January 1997 until December 1999.

From January 2000 until December 2004 I worked as a lecturer in the Department of Biology/ Faculty of science/ 7th April University/ Zawia-Libya

From January 2005 until present time I joined University of Tripoli/ Faculty of Medical Technology/ Public Health Department as a lecturer in Microbiology and Immunology.

From February 2015 until 2019 I was appointed to be the head of the department of Public Health.

I have participated in several local and international conferences.
